

**The Bayton Commitment to Occupational Health & Safety**

Bayton is committed to the health, safety & welfare of all employees as well as any other person affected by our business activities. Our commitment is to reach a target of zero (0) accidents & injuries, however if injuries do occur Bayton is committed to efficient & effective injury management.

Bayton believe that this commitment can only be achieved through a systematic and consultative approach to OHS by:

- Using a risk management process to identify, assess & control hazards and ensuring that these are consistent with the nature and scale of the risks in our environment.
- Complying with relevant OHS legislation, Codes of Practice and other requirements placed upon the organisation, or to which the organisation subscribes.
- Providing appropriate OHS training & supervision.
- Implementing a consultation process to ensure all employees, including any contractors, are included in the decision making processes impacting upon health & safety.
- Disseminating OHS information to all employees, contractors and visitors to the workplace.
- Providing financial and personnel resources to ensure a safe workplace and safe systems of work and adequate facilities for the welfare of employees at work.

Con Katsinas  
Chief Executive Officer
