## Customers Feedback

The support we have received during COVID-19 has been really impressive. The company responds to changing needs really well and their infection control procedures and measures have been outstanding. We recently purchased a testing machine which tests the bacteria on a surface as a COVID-19 infection control measure and at our Algerster site the results were by far better than that of the Ipswich facility. This illustrated to us 2 important things, the cleaners are doing a superior job and the products used meet our infection control requirements.

Baytons are a very professional company and their work really shines. When Covid was announced Baytons responded very quickly and adapted to what was required to ensure the site was safe.

Bega

**Bega**

Communication and service support is excellent and management are very fast at getting back to you when there is any issue with a solution the same day, this makes my job much easier and I know that Bayton are working as part of the team in providing a high standard expected.

Bayton have been outstanding since they commenced the contract late last year and are one of the main reasons Sydney Fish Market remained open throughout Covid-19. No issues whatsoever - communication excellent, standards and professionalism always fantastic.
